CFSC CLUB FACTS

U9

As a part of the Club's youth initiative U9 & below, we have invested time and resources to provide a quality experience for the youth of the club. We look forward to seeing the players continue to grow under the leadership of Chris Mueller and his amazing staff.

The growth of the Juniors department prepares Cleveland Force the future. It is natural for players to change sports or find other interests. Cleveland Force is exposing players to the game at a young age and identify the players ready for club. This will help players be on stronger and more prepared rosters at U10 and older.

Thanks for everyone's support and commitment to our values! We look forward to continue to improve our quality as we move forward to the USL. **Here are a few U9 stats:**

ANNOUNCING THE LAUNCH OF

A PRO LEAGUE FOR WOMEN

IT'S TIME TO STEP UP FOR THE WOMEN'S GAME!

The United Soccer League announced the launch of the USL Super League, a professional Division II women's soccer league in the United States. The USL Super League will provide new opportunities for players, fans, coaches, referees, staff, and executives looking to participate in women's professional soccer. Through the formation of this new league, the USL expects to double the number of professional women's soccer teams in the United States when its inaugural season begins in 2023, giving our fans more opportunities than ever to step up and support the women's game.

With this new league, the USL presents an unprecedented pathway for players. Girls can now begin their careers at the youth level with the USL's Super Y League. As they continue to develop and hone in on their skills, players can move up to the USL Academy platform, in hopes of earning a college scholarship. The W League, USL's elite women's pre-professional league, allows players to take on the next step of their playing careers while maintaining college eligibility. At the top of the USL's women's pathway, players will now have the opportunity to live out their professional dreams with the USL Super League.

The USL Super League, built on the USL's commitment to gender equity and the growth of the women's game, will have consistent compensation and professional standards to those of USL men's professional leagues and reaffirms that our leagues are built upon a recognized and proven structure in international soccer.
